

Brand Guidelines

Children's behavioral & mental health

Table of Contents

These are the itrust Pediatrics brand guidelines. Everything that comes with them, from our logos and colors to our typography and design elements, belongs to itrust Pediatrics.

We put them together so our team, partners, and vendors can all keep the brand looking and sounding like itself.

Brand Essence

Our essence is the heart of who we are. It's the feeling a family should carry with them after being in our care.

Care & Hope

Vision

Our vision is the future we're working toward, and it keeps everything we do pointed the same way.

We picture a world where every child grows up feeling understood, supported, and hopeful, and where no parent has to face their child's mental health feeling lost, alone, or helpless.

Mission

This is what we actually do, day to day, to make that vision real.

We give children, teens, and their families compassionate, expert psychiatric care for their mental and behavioral health. That means careful evaluation, diagnosis, and medication management, meeting each child where they are, at a pace that feels right.

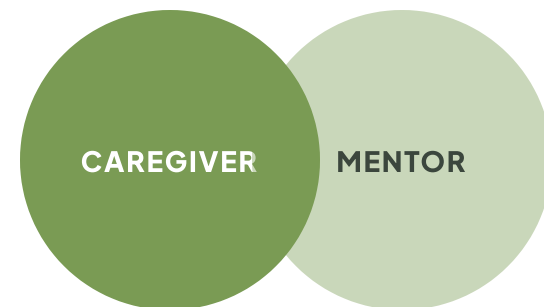

Voice & Tone

We know children's and teens' behavioral and mental health, but we're parents and people first. We don't talk down, we don't over-promise, and we skip the clinical jargon.

We talk to worried families the way a trusted friend who happens to be an expert would: calm, hopeful, and clear.

Brand Voice Guidelines

Our voice is warm, reassuring, and down-to-earth. The tone can shift with the moment, but it always stays hopeful, plain-spoken, and kind.

Positioning & Personality

This is how we introduce ourselves to the world. It says what makes us different, and why families remember us.

“For families seeking psychiatric care for their children, itrust Pediatrics offers compassionate, down-to-earth mental health care and careful medication management, not talk therapy. We pair real clinical expertise with the warmth of a team that treats every child like their own.”

Personality

If our brand were a person, this is what they'd be like. It shapes how we talk, look, and connect.

Warm

Asking for help is hard, especially when it's about your child. We make sure every family feels safe, valued, and at ease.

Reassuring

We meet worry with calm and hope. Families leave feeling steadier than they arrived.

Trustworthy

We're licensed, honest, and clear. We set realistic expectations and always do what's best for the child.

Down-to-earth

Real people who listen and speak plainly. No jargon, no pretense, no judgment.

Brand Values

Our values guide the decisions we make, but they only mean something if we actually live them, every single day.

BRAND VALUES

It starts with trust.

Trust isn't just part of our name. It's our promise, and we earn it through integrity, reliability, and compassion.

The whole child.

We see children as whole people, with their own strengths and feelings. Never a diagnosis, and never a problem to fix.

Families, together.

We don't just treat the child. We walk alongside the whole family, coaching and supporting parents too.

Meet them where they are.

Care at the child's pace and on their terms, whether that's virtual or in person, and always LGBTQIA+ affirming.

Honest and clear.

We use plain language and set realistic expectations. We keep families in the loop at every step, and we never over-promise.

What We Do

This one's a firm rule. itrust Pediatrics is a psychiatric practice for children and teens ages 5 to 19, not a therapy clinic. Everything we say and show needs to stay inside that lane.

IN SCOPE

- ✓ Psychiatric evaluation & diagnosis
- ✓ Careful medication management
- ✓ ADHD/ADD, anxiety, depression & mood
- ✓ Behavioral concerns
- ✓ Family-centered treatment (psychoeducation, care planning)

OUT OF SCOPE / NEVER IMPLY

- ✗ Talk therapy, counseling, or play therapy
- ✗ Physical medicine, illnesses, or vaccines
- ✗ Well-child checkups or sick visits
- ✗ Stethoscopes or exam-room imagery
- ✗ Any general-pediatrician / primary-care claim

Visual Identity

Our visual identity is everything people see and recognize as us:
the logo, the colors, and the typography.

Logo

Our logo is warm, approachable, and clear. It brings together our growing-tree mark, with its coral, teal, and golden hearts, and the wordmark.

Use the full-color logo whenever you can. When you only have one color to work with, reach for the reversed or one-color versions.

Primary Logo — Horizontal

FULL COLOR

Our main lockup. Use it on all external collateral, and prefer full color on light backgrounds.

REVERSED

Stacked Logo — Vertical

FULL COLOR

Use the stacked version for square or narrow spaces, such as social avatars and app icons.

REVERSED

Logo Usage

The logo should appear in full color when possible. On single-color applications, use the reversed or one-color variations.

Keep clear space around the mark equal to at least half the height of the tree icon. Never crowd it. Minimum on-screen width ~120px so the wordmark and hearts stay legible.

On White or Light Backgrounds

FULL COLOR

ON CREAM

On Dark or Color Backgrounds

REVERSED

MUTED ON GREEN

Incorrect Logo Usage

DO NOT:

1. Rotate the logo
2. Replace the wordmark font
3. Use a non-brand color
4. Add elements in the clear space
5. Rearrange the order
6. Resize individual parts
7. Outline the wordmark
8. Warp, stretch, or skew
9. Recolor the tree or hearts
10. Place illegibly over images

Brand Colors

The greens are the heart of our palette: natural, grounded, and full of growth. The coral, teal, and gold hearts add warmth and hope, and the soft creams keep everything feeling gentle.

Lean on the greens as your foundation, and use the heart colors sparingly. Coral is our go-to whenever something should feel like a call to action.

BRAND COLORS

Primary: Greens & Neutrals

	Forest Green	CMYK 60·0·40·70	RGB 31·77·46	HEX #1f4d2e
	Pine Green	CMYK 50·0·34·51	RGB 63·125·82	HEX #3f7d52
	Sage	CMYK 21·0·46·39	RGB 122·155·84	HEX #7a9b54
	Cool Sage	CMYK 10·0·27·20	RGB 184·205·150	HEX #b8cd96
	Cream Canvas	CMYK 0·2·5·2	RGB 251·247·238	HEX #fbf7ee

Accents: Hearts

	Coral	CMYK 0·55·68·7	RGB 238·108·77	HEX #ee6c4d
	Teal	CMYK 73·0·9·38	RGB 42·157·143	HEX #2a9d8f
	Golden Yellow	CMYK 0·20·80·4	RGB 244·196·48	HEX #f4c430

Typography

Our type is welcoming and easy to read: clean, clear, and direct. Headlines use GT Super Display, while subheadings and body copy use Plus Jakarta Sans.

Accessibility & Contrast

Caring for children's wellbeing means caring about everyone who reads our words, including people with low vision. Good contrast is part of being warm and welcoming.

Use these tested pairings for text. When in doubt, dark ink on cream or white on forest never lets you down.

Text color pairings

AAA/AA pass LARGE/BOLD big text only AVOID not for text

Aa Cream on Forest	#fbf7ee on #1f4d2e	9.1:1	AAA

Aa Sage on White	#7a9b54 on #ffffff	3.2:1	LARGE
Aa Gold on White	#f4c430 on #ffffff	1.6:1	AVOID

Visual Expression

This is how our photography, illustration, and icons carry the brand's feeling, so people recognize us even when the logo isn't there.

Photography

WARM, AUTHENTIC & HOPEFUL

Our photos should feel real and reassuring: honest moments among children, teens, families, and our care team. Go for warm light, soft tones, and genuine, positive emotion.

When a child appears, aim for ages 10 to 12, and show real, diverse families. Steer clear of clinical or physical-medicine cues, and always use fresh, properly licensed images.

PHOTOGRAPHY

Iconography & UI

PRACTICAL & APPROACHABLE

Keep icons and interface elements simple, high-contrast, and rounded, echoing the soft shapes of our logo. Stick to brand colors, rounded corners, and pill shapes, and use icons sparingly so they help instead of clutter.

Buttons & Icons

**Book a Visit****Learn more →****CONDITION TAG****+**

Principles

Round the corners everywhere (cards around 14 to 18px; buttons and tags are full pills). Use simple line icons with a ~1.8px stroke and rounded caps, in brand colors. Add gentle, green-tinted shadows for depth, and keep them soft, never harsh.

Brand in Action

This is where the brand comes to life. When the logo, colors, type, and voice all work together, families recognize us everywhere they meet us.

Use these as a starting point for real touchpoints: reminders, social posts, signatures, and signage. Keep the greens grounding, coral for action, and the tone warm.
